SREEDEEP SREEKANTH

Senior Data Analyst

@ srdp.sk@gmail.com +49 157 83445448 in sreedeep-sreekanth srdpsrknth

Senior Data Analyst with 5+ years of experience in AdTech and mobile app environments, specializing in leveraging SQL and Python for advanced analytics, A/B testing, and ML model optimization. Proven ability to translate complex data into actionable insights, build robust dashboards, and drive strategic improvements in bidding algorithms and user acquisition through statistical analysis and data visualization.

PROFESSIONAL EXPERIENCE

NeoTaste GmbH

Marketing Business Analyst — 2025 01 – present — Berlin, Germany

- Led end-to-end marketing and growth analytics for a subscription-based mobile app across 51 cities, identifying key user patterns and inefficiencies.
- Designed and implemented a demand forecasting model using Python, Snowflake, and dbt, enabling scenario-based budget planning and city-level growth forecasts.
- Unified attribution, performance, and CRM metrics into standardized Power BI dashboards, providing leadership with actionable insights for strategic decisions.
- Built and maintained scalable data models and fact tables in Snowflake and dbt, integrating performance marketing, CRM, and product event data for comprehensive analysis.
- Partnered with Marketing, Product, and Operations to translate complex business questions into data-driven solutions, guiding product-related decisions.
- Analyzed user acquisition and retention funnels to optimize marketing spend and improve LTV/CAC ratios across diverse channels.

Selected Projects:

Marketing Demand Forecasting Model & Scenario Dashboard (51 cities)

- Designed and implemented a city-level demand forecasting model to estimate new users and subscriptions based on marketing spend inputs.
- Built scalable data models in Snowflake and dbt to combine historical performance marketing data with forecast assumptions.
- Developed a Python-based interface to simulate budget allocation scenarios and assess expected impact on growth metrics.
- Enabled leadership and marketing teams to compare trade-offs across cities and channels, supporting quarterly planning and budget decisions.

Technologies: Snowflake SQL, dbt, Python, Power BI, Adjust, Braze, GA4

---

ecoligo GmbH

Business Intelligence Analyst — 2023 07 – 2025 01 — Berlin, Germany

- Developed a custom Markov chain marketing attribution model, integrating diverse ad platforms to optimize resource allocation and CLTV calculation.
- Designed and maintained performance marketing and product analytics dashboards using Looker, providing real-time insights into user behavior and model performance.
- Set up and designed the data warehouse in BigQuery with dbt for user behavioral and investment data, ensuring robust data foundations for ML models.
- Implemented session-level tracking using Snowplow and PostHog to capture detailed user behaviors, enhancing data accuracy for analytical and ML applications.
- Implemented GTM server-side for Facebook Conversions API and Google Enhanced conversions, improving ad network data quality and measurement.

Selected Projects:

Conversational LLM Chatbot for Dynamic Database Querying

- Developed an internal conversational analytics tool using OpenAI's GPT API to dynamically generate SQL queries against Google BigQuery.
- Enabled business stakeholders to query customer and investment data without SQL knowledge, improving access to insights.
- Integrated direct API-based query execution and result visualization, reducing manual analysis effort for the data team.
- Optimized prompt design and API usage to significantly reduce token consumption and operational costs.

Cashback and Bonus Payment Automation

- Designed and implemented an automated pipeline to calculate voucher and cashback payouts from raw transactional data.
- Built a Python-based workflow to transform data into SEPA-compatible payment files, reducing manual processing errors.
- Integrated the process into the broader data orchestration setup using dbt and Y42 to ensure reproducibility and auditability.

Technologies: BigQuery SQL, dbt, Y42, Python, Looker, Snowplow, PostHog, GTM, HubSpot

heycar (Mobility Trader GmbH)

Data Analyst 2021 12 – 2023 05 Berlin, Germany

- Executed cross-functional projects, including A/B testing product changes and optimizing search algorithms, directly impacting user experience and conversion.
- Developed a custom multi-touch attribution model using Python and SQL to optimize marketing mix and spend across diverse channels.
- Analyzed online user behavior, retention, and customer journeys to identify key drivers and inform product and marketing strategies.
- Managed data migration into a new dbt-based data structure, ensuring data integrity and consistency for downstream analytics and reporting.
- Created and maintained daily/weekly KPI dashboards on Looker, providing senior management with critical insights into marketing performance.

Selected Projects:

Performance Marketing Channel Attribution

- Developed a custom multi-touch attribution approach to redistribute untracked sessions and leads across paid marketing channels.
- Combined session-level data and recent channel interaction shares to assign attribution using a U-shaped logic.
- Automated ETL pipelines using Matillion to ensure consistent and scalable attribution reporting.
- Enabled marketing teams to better evaluate channel performance and optimize budget allocation.

Technologies: PostgresSQL, Python, dbt, Looker, Matillion

ORMIT (Traineeship)

Marketing Analyst 2020 12 – 2021 11 Utrecht, The Netherlands

EDUCATION

MScBA Master in Management

Rotterdam School of Management, Erasmus University 2017 – 2018 Rotterdam, The Netherlands

Dual Degree (B.Tech + M.Tech) Metallurgy & Materials Engineering

Indian Institute of Technology - Madras 2010 – 2015 Chennai, India

Certifications:

IBM Certified Data Analyst Professional | Google Analytics Individual Qualification | Google Ads Certification

SKILLS

Adtech & Data Science Analytics: Attribution Modeling | A/B Testing & Experimentation | Statistical Analysis | Forecasting | Customer Segmentation | Cohort & Funnel Analysis | Marketing Mix Modeling (MMM) | LTV / CAC | Incrementality Testing | Retention & Churn Analysis | Subscription Analytics | SaaS & Marketplace Metrics

Programming & Data Engineering: Advanced SQL | Python (Pandas, NumPy) | dbt (Data Build Tool) | Snowflake | BigQuery | Analytics Engineering | Data Modeling & Semantic Layers | Workflow Automation

Business Intelligence & Visualization: Power BI | Looker | Data Storytelling | Advanced Excel (Power Query, Pivot Models) | Google Sheets Automation

Data Tracking & Marketing Platforms: GA4 | Google Tag Manager (Client & Server-side) | Adjust MMP | Braze CRM | HubSpot | Amplitude | Meta Ads | Snowplow | PostHog

Advanced Tools & Collaboration: LLM APIs (OpenAI / GPT) | SQL Generation with LLMs | Git | Jira | Stakeholder Management | Microsoft PowerPoint

LANGUAGES

English: Fluent | German: Basic
