SREEDEEP SREEKANTH

Senior Data Analyst

@ srdp.sk@gmail.com +49 157 83445448 sreedeep-sreekanth srdpsrknth

Senior Data Analyst with 5+ years of experience in AdTech and mobile app environments, specializing in leveraging data to optimize bidding algorithms and drive business growth. Proficient in SQL, Python, and statistical analysis for A/B testing, user behavior analysis, and building impactful dashboards to translate complex data into actionable insights for Data Science and business teams.

PROFESSIONAL EXPERIENCE

NeoTaste GmbH

Marketing Business Analyst 2025 01 – present Berlin, Germany

- Analyzed user usage patterns and growth metrics for a subscription-based mobile app across 51 cities, identifying inefficiencies and informing bidding strategy.
- Designed and implemented a demand forecasting model in Snowflake and dbt, enabling scenario-based budget planning and city-level growth forecasts, supporting ML model inputs.
- Unified attribution, performance, and CRM metrics through standardized Power BI dashboards, providing leadership with clear model performance insights.
- Collaborated with Marketing, Product, and Operations stakeholders to translate business requirements into actionable data insights and contribute to product decisions.

Selected Projects:

Marketing Demand Forecasting Model & Scenario Dashboard (51 cities)

- Designed and implemented a city-level demand forecasting model to estimate new users and subscriptions based on marketing spend inputs.
- Built scalable data models in Snowflake and dbt to combine historical performance marketing data with forecast assumptions, informing ML model development.
- Developed a Python-based interface to simulate budget allocation scenarios, enabling data scientists and leadership to assess expected growth impact.

Technologies: Snowflake SQL, dbt, Python, Power BI, Adjust, Braze, GA4

---

ecoligo GmbH

Business Intelligence Analyst 2023 07 – 2025 01 Berlin, Germany

- Developed a custom Markov chain marketing attribution model, integrating diverse platforms (Google Ads, Facebook, Hubspot), optimizing resource allocation and CLTV calculations.
- Created investor segmentation personas using K-means Clustering to enable targeted advertising and improve churn rate analysis, informing data science strategies.
- Designed and maintained Investment Performance, Performance Marketing, and Product Analytics Dashboards using Looker, simplifying model performance for stakeholders.
- Set up and designed the data warehouse in BigQuery with dbt for user behavioral and investment data, ensuring robust data foundations for analysis.

Selected Projects:

Conversational LLM Chatbot for Dynamic Database Querying

- Developed an internal conversational analytics tool using OpenAI's GPT API to dynamically generate SQL queries against Google BigQuery.
- Enabled business stakeholders to query customer and investment data without SQL knowledge, improving access to insights and reducing data team workload.
- Optimized prompt design and API usage to significantly reduce token consumption and operational costs, showcasing efficient solution design.

Technologies: BigQuery SQL, dbt, Y42, Python, Looker, Snowplow, PostHog, GTM, HubSpot

---

heycar (Mobility Trader GmbH)

Data Analyst 2021 12 – 2023 05 Berlin, Germany

- Led cross-functional A/B testing initiatives for product changes and search algorithm optimization, analyzing results to guide data-driven decisions.
- Developed a custom multi-touch lead attribution model using Python and SQL to optimize marketing mix and spend across channels.
- Analyzed online user behavior, retention, and customer journeys, performing funnel analysis to identify key drivers and trends.
- Created and maintained daily/weekly KPI dashboards on Looker for senior management, identifying key drivers and trends in marketing performance.

Selected Projects:

Performance Marketing Channel Attribution

- Developed a custom multi-touch attribution approach to redistribute untracked sessions and leads across paid marketing channels.
- Combined session-level data and recent channel interaction shares to assign attribution using a U-shaped logic, enhancing marketing ROI tracking.

- Automated ETL pipelines using Matillion to ensure consistent and scalable attribution reporting, supporting data-driven budget optimization.

Technologies: PostgresSQL, Python, dbt, Looker, Matillion

ORMIT (Traineeship)

Marketing Analyst 2020 12 – 2021 11 Utrecht, The Netherlands

- Completed a comprehensive Marketing Analyst traineeship, gaining foundational experience in data-driven marketing strategies.

Unilever

Project Coordinator - Front of House 2019 03 – 2019 08 Rotterdam, The Netherlands

EDUCATION

MScBA Master in Management

Rotterdam School of Management, Erasmus University 2017 – 2018 Rotterdam, The Netherlands

Dual Degree (B.Tech + M.Tech) Metallurgy & Materials Engineering

Indian Institute of Technology - Madras 2010 – 2015 Chennai, India

Certifications:

IBM Certified Data Analyst Professional | Google Analytics Individual Qualification | Google Ads Certification

SKILLS

Core Analytics Quant Methods: Advanced SQL | Python (Pandas, NumPy) | Statistical Analysis | A/B Testing & Experimentation | Attribution Modeling | Forecasting | Cohort & Funnel Analysis | Customer Segmentation | Marketing Mix Modeling (MMM)

Data Engineering Modeling Bi: Snowflake | BigQuery | dbt | Analytics Engineering | Data Modeling & Semantic Layers | Looker | Power BI

Product Growth Gtm: Retention & Churn Analysis | LTV / CAC | Activation Metrics | Subscription Analytics | SaaS & Marketplace Metrics | Go-To-Market (GTM) Analytics | Incrementality Testing

Tracking Marketing Tech Product Analytics: GA4 | Google Tag Manager (Client & Server-side) | Adjust MMP | Braze CRM | HubSpot | Amplitude | Meta Ads

Automation Llms Advanced Tooling: LLM APIs (OpenAI / GPT) | SQL Generation with LLMs | Workflow Automation | Advanced Excel (Power Query, Pivot Models) | Google Sheets Automation

Collaboration Communication: Jira | Stakeholder Management | Data Storytelling | Git | Microsoft PowerPoint

LANGUAGES

English: Fluent | German: Basic
